## DICOM Configuration

In the system setting under DICOM Configuration you have to enter the following three services:

- STORE
- STR.REPORT
- WORKLIST

As IP-Address the IP-Address of the server where the MedITEX-DIOCM-SERVER is installed and the port has to be 108. When you have entered a services click by each service on "Test Connection" to check the connectivity.

Services	Alias	AE Title	IP Address	Port	Color / Size
<input checked="" type="checkbox"/> STORE	MEDITEX	MEDITEX	127.0.0.1	108	Color / Original
<input checked="" type="checkbox"/> STR.REPORT	MEDITEX	MEDITEX	127.0.0.1	108	
<input checked="" type="checkbox"/> WORKLIST	MEDITEX	MEDITEX	127.0.0.1	108
